Introduction

Access for All 1

1 The Debris Problem 5

1 Introduction 5

1.1 *Early Recognition of the Risk of Space Debris* 7

2 Space Debris Defined 12

3 Space Debris Creation 15

4 Identifying the Degree of Space Debris Accumulation—What Is Space SSA? 20

4.1 *Who Is Responsible for SSA Management?* 22

4.2 *Other SSA Programs* 23

4.3 *How Are Space Objects (and Debris) Identified and Tracked?* 24

4.4 *How Does SSA Work* 26

5 Conclusion 30

2 International Law and the Formal Space Treaties 31

1 Introduction 31

2 Public International Law 34

2.1 *Development of Public International Law Related to Space* 36

3 International Space Treaties 44

3.1 *Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies* 44

3.1.1 Outer Space Treaty, Article I 45

3.1.2 Outer Space Treaty, Article II 47

3.1.3 Outer Space Treaty, Article III 49

3.1.4 Outer Space Treaty, Article IX 51

3.1.5 Outer Space Treaty, Article XI 61

3.2 *The Remaining 'Big 4' International Space Treaties* 65

4 Jurisdiction of Space Objects 65

5 Registration of Space Objects 66

6 Conclusion 67

- 3 Development of Customary International Law—Space Law and Debris Mitigation 69**
- 1 Introduction 69
 - 2 Basic Requirements of Customary International Law 70
 - 2.1 *Time Requirement of Customary International Law* 73
 - 2.1.1 How Important Is the Time Element of Customary International Law in Modern Times 74
 - 2.1.2 Continuous Claim and Response 75
 - 2.1.3 Harry S. Truman and the Continental Shelf—Testing the Time Requirement 75
 - 2.1.4 Legitimacy of Instant Customary International Law in the Courts 79
 - 3 Instant Customary International Law in Space Law 80
 - 3.1 *Post-Truman—Sputnik as the Next Use Case* 82
 - 4 International Efforts in Space Debris Mitigation—on the Cusp of Customary International Law 83
 - 4.1 *The United Nations Space Debris Mitigation Guidelines of the Committee on the Peaceful Uses of Outer Space* 85
 - 4.1.1 Leading to the Mitigation Guidelines—Initial Assessments of Nation-State Efforts 87
 - 4.1.2 From Analysis to Understanding—the Development of the Debris Mitigation Guidelines 92
 - 4.1.3 From Understanding to Action—Drafting the Debris Mitigation Guidelines 96
 - 4.1.4 Reviewing the Impact: Debris Mitigation Guidelines 100
 - 5 International Telecommunications Union 102
 - 6 Conclusion 104
- 4 The United States—Space Debris Mitigation, Prevention, and Policy 106**
- 1 Introduction—US Space Debris Policy 106
 - 1.1 *Development of National-Level US Space Debris Policy* 106
 - 1.2 *Orbital Debris Mitigation Standard Practices and SPD-3* 113
 - 1.3 *2020 US National Space Policy* 116
 - 1.3.1 The Six Principles of President Trump's National Space Policy 117
 - 1.3.2 The Eight Goals of President Trump's National Space Policy 117

	1.3.3	President Trump's National Space Policy and Orbital Debris	118
	1.4	<i>Impact of ODMSP Changes and US Policy</i>	119
2		Federal Aviation Administration	121
	2.1	<i>Roles of the Federal Aviation Administration Office of Commercial Space Transport</i>	122
	2.2	<i>Federal Aviation Administration Office of Commercial Space Transport Licensing</i>	122
	2.3	<i>Requirements for Initial Licensing Considerations</i>	123
	2.4	<i>Assessing Launch Risk</i>	125
	2.5	<i>Launch Application and License</i>	126
	2.6	<i>Licensing and Orbital Debris</i>	127
	2.7	<i>Debris Avoidance from Collision</i>	130
	2.8	<i>End of Operations</i>	131
3		Federal Communications Commission	132
	3.1	<i>Authority to License</i>	133
	3.2	<i>Licensing Requirements</i>	134
	3.3	<i>Title 47 C.F.R. (Telecommunication) and New Orbital Debris Rules</i>	137
	3.3.1	Title 47 C.F.R. Part 5—Experimental Radio Service, 47 C.F.R. §5.64(b)-Special Provisions for Satellite Systems	137
	3.3.2	Title 47 C.F.R. Part 25—Satellite Communications	138
	3.3.3	Title 47 C.F.R. Part 97—Space Station	149
	3.4	<i>Evolution of FCC Efforts toward Addressing Orbital Debris Mitigation Efforts</i>	151
	3.5	<i>FCC and the Way Ahead</i>	152
4		The US National Space Council	153
5		Conclusion	155
5		China	157
	1	Introduction to the Chinese Space Program	157
	2	Background of the Development of the Chinese Space Program	159
	3	The Modern Chinese Space Program	161
	4	The Legislative Governance Elements of the Chinese Space Program	162
	4.1	<i>China's Civil Space Program Management</i>	166
	5	Chinese Regulatory Efforts toward Sustainability and Orbital Debris	168

- 5.1 *China and International Space Agreements* 168
- 5.2 *Chinese Regulations Based on International Commitments* 168
- 5.3 *Domestic Departmental-Level Regulations* 170
 - 5.3.1 *China's Existing Space Regulations—2001 Measures for the Administration of Registration of Objects Launched into Outer Space* 171
 - 5.3.2 *China's Existing Space Regulations—the Interim Measures on the Administration of Licensing the Project of Launching Civil Space* 173
- 5.4 *The 2010 Interim Instrument on Space Debris Mitigation and Management Instrument* 175
- 6 *China's Space Policy—the Chinese White Papers* 177
 - 6.1 *The 2000 China Space White Paper* 177
 - 6.2 *The 2006 China Space White Paper* 179
 - 6.3 *The 2011 China Space White Paper* 179
 - 6.4 *The 2016 China White Paper* 180
 - 6.5 *The 2021 China White Paper* 181
 - 6.6 *Words versus Actions—Are the Chinese Actually Committed to the Space Sustainability Discussed in Their White Papers?* 183
- 7 *Conclusion—the Future of China's Space Program* 185
- 6 *Russia* 188
 - 1 *Introduction* 188
 - 2 *Russian Interpretation of International Law Influencing Russian Space Law* 190
 - 2.1 *Overview of Russian Approach to International Law* 192
 - 2.2 *Modern Russian Approach to International Law* 195
 - 3 *Russia's Domestic Implementation of Obligations under International Space Law* 197
 - 3.1 *Russian Domestic Space Debris Regulatory Scheme* 198
 - 3.1.1 *Russian Domestic Regulatory Scheme—Decree No. 5663-1, about Space Activities* 199
 - 3.2 *Licensing in Russia* 200
 - 3.3 *Principal Space Debris Regulation—GOST P 52925-2018* 204
 - 3.3.1 *Debris Reduction through Design* 205
 - 3.3.2 *Debris Reduction during Operations* 206
 - 3.3.3 *Debris Reduction during Post-mission Disposal* 208
 - 4 *Conclusion* 209

- 7 European Space Agency 211**
- 1 Introduction 211
 - 2 ESA Today 213
 - 2.1 *ESA Membership* 216
 - 2.2 *ESA Programs and Participant Requirements* 217
 - 3 ESA and International Legal Standing and Authority 220
 - 3.1 *ESA and International Agreements* 221
 - 3.2 *Creation of International Legal Norms—ESA Customary International Law* 222
 - 3.3 *ESA and Space Debris Legal Norms* 223
 - 4 Specific Efforts at Forming Legal Norms for Space Debris Mitigation and Prevention 225
 - 4.1 *ESA Space Debris Mitigation Handbook* 225
 - 4.2 *European Code of Conduct for Space Debris Mitigation* 226
 - 4.3 *European International Code of Conduct for Outer Space Activities* 227
 - 5 International Organization for Standardization Debris Mitigation Guidelines 230
 - 5.1 *ISO and ESA Adoption of Debris Standards—ISO 24113:2010 through ISO 24113:2019* 231
 - 5.1.1 *ISO 24113:2019—Space Systems-Space Debris Mitigation Requirements* 233
 - 5.2 *Progeny of ISO 24113:2019—Debris Mitigation for Spacecraft and Launch Vehicles* 240
 - 5.2.1 *Space Debris Mitigation Requirements for Spacecraft—ISO 16164:2015, ISO 26872:2019, ISO 23339:2012, ISO 16127:2014* 240
 - 5.2.2 *Space Debris Mitigation Requirements for Launch Vehicles* 243
 - 6 Beyond ESA ISO Standards 245
 - 6.1 *European Union Space Strategy for Europe* 245
 - 7 Conclusion 247
- 8 Does Existing Space Debris Guidance Establish Customary International Law? 250**
- 1 Introduction 250
 - 2 Beyond Legacy IADC and UN COPUOS—Recent Voluntary Space Debris Mitigation Guidelines 252
 - 2.1 *Committee on the Peaceful Uses of Outer Space Guidelines for the Long-Term Sustainability of Outer Space Activities* 253

- 2.1.1 UN COPUOS LTS Guidelines—Policy and Regulatory Framework 255
- 2.1.2 UN COPUOS LTS Guidelines—Safety of Space Operations 255
- 2.1.3 UN COPUOS LTS Guidelines—International Cooperation and Capacity Building and Awareness 256
- 2.1.4 UN COPUOS LTS Guidelines—Scientific and Technical Research and Development 257
- 2.1.5 UN COPUOS LTS Guidelines—the Way Ahead 257
- 2.2 *Background—Space Safety Coalition Best Practices for the Sustainability of Space Operations Guidelines* 258
 - 2.2.1 SSC Sustainability Practices 259
- 3 Can Customary International Law Be Found as a Result of Nation-State Implementation of Orbital Debris Prevention and Mitigation Efforts? 260
 - 3.1 *The Seven Mitigation Themes* 262
 - 3.1.1 Theme 1—Debris Mitigation Is to Be Considered during All Stages of a Space Project 262
 - 3.1.2 Theme 2—Release of Space Debris during Normal Operations Is to be Limited 264
 - 3.1.3 Theme 3—Efforts Should Be Expended to Avoid Collisions in Orbit 267
 - 3.1.4 Theme 4—Risk of Breakups during Operational Phases is to be Minimized 270
 - 3.1.5 Theme 5—the Potential for Post-mission Breakups Resulting from Stored Energy Should Be Minimized by Passivation 274
 - 3.1.6 Theme 6—If Not Destroyed by Atmospheric Methods, Post-mission Disposal of Space Objects Away from LEO and GEO Is to Be Arranged 278
 - 3.1.7 Theme 7—Intentional Destruction and Other Harmful Activities Are to Be Avoided 284
- 4 Do Any Similarities in the Way Nations Implement the Standards Represented within the Themes Meet the Standards of Customary International Law? 288
 - 4.1 *The 25 Year 'Rule'* 290
- 5 Conclusion 297

9	Where Do We Go from Here?	299
1	Introduction	299
2	Is Soft Law Appropriate to Address the Space Debris Issue at All?	299
2.1	<i>Though Soft Law Is Not a Likely Solution, Treaty Law Is Equally Elusive to Solve the Problem</i>	303
3	Is New Governance the Answer? Evolving Space Governance—Past, Present and Future	306
3.1	<i>Space Governance—Where We Were</i>	308
3.2	<i>Space Governance—Where We Are</i>	310
3.3	<i>Space Governance—Do We Need a Different Governance Model (Where Are We Going)?</i>	313
4	One Key Option to Solve the Debris Problem—Active Debris Removal and Legal Challenges	317
4.1	<i>Background on Modern ADR Efforts</i>	320
4.2	<i>Current Major ADR Efforts</i>	321
4.2.1	Lasers	321
4.2.2	Solar Sails	323
4.2.3	Harpoons	324
4.2.4	Grappling Arms/Claws	325
4.2.5	System Capture and Containment	326
4.3	<i>Legal Challenges to Implementation of ADR</i>	326
4.4	<i>Recommendations to Address Debris Removal Legal Challenges</i>	332
4.4.1	Instant Customary International Law in Practice	332
5	A Need to “Go It Alone” to Establish Customary International Law?	335
5.1	<i>“Going It Alone”—Principles for Successful Independent ADR Activity</i>	338
6	Conclusion	339
	References	343
	Index	387
